A Vision for Lebanon's Future

Neemat G. Frem's journey is marked by his unwavering commitment to public service, innovative business leadership, and advocacy for Lebanon on the global stage. His visionary approach and steadfast dedication to the principles of freedom, prosperity, and human dignity reflect his profound sense of responsibility in times of crisis. As someone who has consistently transformed challenges into opportunities and guided systems towards success, Frem is determined to use his capabilities to navigate Lebanon through its current turmoil.

Chairman CEO, INDEVCO Group

Neemat G. Frem is a distinguished Lebanese politician, visionary businessman, and a Member of the Lebanese Parliament. As the Chairman CEO of INDEVCO Group, a multinational conglomerate employing over 11,500 people worldwide, he exemplifies strategic leadership and innovation in the business world.

Political Career and Vision

Neemat Frem is currently a member of parliament after being elected for the second time to represent the Keserwan-Jbeil constituency; Frem has made significant contributions to Lebanon's legislative landscape notable in the financial recovery programs and legislative laws. During his 2018 parliamentary tenure, he served as the Chair of the National Economy, Trade, Industry, and Planning Parliamentary Commission. Demonstrating his foresight and economic acumen, he developed a comprehensive five-year plan aimed at achieving a zero-deficit budget to avert the financial crisis he had predicted as early as 2015. Unfortunately, the establishment ignored this plan, resulting in severe consequences for the country. Frem is also an active member of the Foreign Affairs and Emigrants Parliamentary Commission.

In the aftermath of the devastating 2020 Beirut explosion, Frem resigned from parliament, protesting against the pervasive corruption and systemic failures that precipitated Lebanon's financial collapse and the catastrophic event in Beirut.

Project Watan and Advocacy

Currently, Frem leads as the president of the executive board of "Project Watan," a national political movement dedicated to ensuring the happiness and dignity of the Lebanese people while building a state founded on freedom, prosperity, and sovereignty. His advocacy extends beyond Lebanon, reaching influential global capitals such as Paris, Washington DC, the Gulf countries, and the Vatican, where he passionately represents Lebanese interests and advocates for international support.

Business Leadership and Innovation

As the Chairman CEO of INDEVCO Group, Frem has demonstrated remarkable success in turning a crisis into an opportunity and navigating through hardships. His leadership at INDEVCO has been characterized by strategic growth and innovation, cementing the company's reputation as a global industrial leader.

Phoenix Group

Frem is also the founder and president of Phoenix Group, where he has significantly contributed to advancing sustainability and innovative products in the market. Under his leadership, Phoenix Group has pioneered advancements in Lebanon, including photovoltaic (PV) systems, electric cars, and life-saving ventilators during the COVID-19 pandemic.

His forward-thinking approach has positioned Phoenix Group at the forefront of sustainable technology and innovative solutions.

Association of Lebanese Industrialists and Maronite Foundation

Frem headed the Association of Lebanese Industrialists from 2010 to 2014, championing the interests of Lebanese manufacturers and promoting industrial growth. Additionally, he founded and led the Maronite Foundation in the World from 2016 to 2018, fostering connections within the global Lebanese community.

Initiatives and Achievements

In 2013, Frem launched the "Better Lebanon" initiative, a comprehensive approach to Lebanon's economic, social, and governance reforms. This initiative was institutionalized as an NGO in 2019, coordinating with various organizations and the Lebanese Diaspora to promote sustainable development, humanitarian aid, and social support.

Frem's contributions to innovation are also notable. He holds two U.S. patents: the Solar Mill Fluid Expansion Engine (2017) and an automated sandwich-making dispenser (2007).

In recognition of his contributions, he received a Doctorate Honoris Causa from the Holy Spirit University of Kaslik in July 2018.

Interfaith Dialogue and Community Engagement

A committed advocate for inter-religious dialogue, Frem has founded and served on the boards of numerous associations promoting Christian-Islamic dialogue. His dedication to fostering understanding and cooperation among different religious communities underscores his commitment to human dignity and social harmony.
